

M K JUNAYED PARVES

Business Intelligence Analyst | Power BI & SQL Reporting | Data-Driven Operations

Dhaka, Bangladesh | +880 1675751285 | jndparves@gmail.com | linkedin.com/in/junayedparves

EXECUTIVE SUMMARY

Business Intelligence Analyst with 4+ years of experience designing and deploying Power BI dashboards, writing complex SQL queries, and delivering strategic reporting across insurance, e-commerce, and F&B operations. Proven track record of automating recurring reporting workflows, identifying root causes of data and process inefficiencies, and translating findings into actionable insights for cross-functional stakeholders. Adept at managing multiple reporting requests in fast-paced, multinational environments while maintaining data accuracy and governance standards. Seeking to bring operational reporting expertise and a strong analytical, storytelling mindset to A&E's data and BI function.

CORE COMPETENCIES

- Power BI Dashboard Design & Deployment
- Advanced SQL Querying
- Strategic & Operational Reporting (Daily, Weekly, Monthly, Quarterly)
- Root-Cause & Trend Analysis on Data Inaccuracies
- Stakeholder Requirements Gathering & Relationship Management
- Data Quality, Validation & Governance
- KPI Development & Performance Tracking
- Cross-Functional Collaboration & Process Optimization

TECHNICAL SKILLS

BI & Visualization: Power BI, Tableau, Google Looker Studio, Excel Charts

Databases & Query: SQL (SQL Server, MySQL) — complex query writing, data extraction, cleaning, validation, data warehousing

Analytics & Coding: Python (Pandas, NumPy), Advanced Excel (Pivot Tables, VLOOKUP, Power Query)

Collaboration Tools: Microsoft 365, Google Workspace

PROFESSIONAL EXPERIENCE

Senior Analyst — Green Delta Insurance PLC

Jan 2025 – Present | Dhaka, Bangladesh

- Designed, developed, and deployed a suite of operational and financial Power BI dashboards tracking premium collection, renewal rates, and branch performance, now used by 6 business units for daily decision-making.
- Maintained SQL and Power BI reporting solutions across underwriting and finance functions, reducing manual compilation time and improving report turnaround.
- Automated 3 recurring reporting workflows, eliminating manual errors and freeing analyst capacity for higher-value analysis.
- Partnered closely with underwriting, finance, and reporting stakeholders to gather requirements and align dashboards with evolving business needs.

Data Analyst — Operational Risk Management — MetLife Bangladesh

Mar 2024 – Dec 2024 | Dhaka, Bangladesh

- Analyzed operational risk datasets to detect exposure trends across claims, policy services, and underwriting, surfacing insights that informed mitigation decisions for a regulated life insurance portfolio.
- Produced regulatory-grade risk reports for compliance governance, ensuring data integrity across cross-functional submissions to underwriting, finance, and Policy Service.
- Collaborated with underwriting, claims, and finance teams to evaluate and mitigate risk exposure, and to align reporting with regulatory requirements.

Senior Executive, Product Development & QA — Bikroy (Bangladesh's Largest Online Marketplace)

Mar 2023 – Aug 2023 | Dhaka, Bangladesh

- Developed and maintained QA metrics and reports using SQL and Google Sheets to extract actionable insights from large product and platform datasets.
- Tracked and documented platform defects, producing structured reports that reduced issue-resolution time with the engineering team.
- Conducted field research and translated user feedback into data-driven recommendations for the product development team.

Business Intelligence Analyst — Secret Recipe Bangladesh (Fair Group)

Feb 2022 – Mar 2023 | Dhaka, Bangladesh

- Designed and maintained Power BI and Excel sales performance dashboards, enabling real-time visibility into revenue trends across outlets.
- Analyzed POS data to optimize inventory turnover and sourcing decisions, reducing food waste by 10% and food costs by 8%.
- Delivered ongoing KPI reporting and sales forecasts to operations and leadership, informing pricing and promotional strategy.

Analyst, Data Processing — Quantanite

Sep 2020 – Sep 2021 | Dhaka, Bangladesh

- Conducted systematic data quality checks and validation protocols to improve data integrity across client datasets.
- Collaborated with 80+ team members across functions to maintain data compliance, privacy standards, and process efficiency.
